Homepage Widgets

Once logged in to the app, members will see multiple widgets on the the homepage screen. These widgets are customized based on your plan.

These different widgets allow you to search for providers, view relevant benefits documents and the status of your deductible and out of pocket (OOP) expenses.

Care History: View individual claims and Estimate of Benefits (EOBs) that you can download.

ID Card: Easily access ID cards to download and save.

Provider Search: Launch a provider search to quickly find an in network doctor.

My Benefits: View the details of your plan benefits, search for specific benefits and view your benefit documents.

Spend Summary: View the status of your spending with regards to your health benefits, specifically your deductible and out of pocket (OOP) status.

Services: See various services that you have access to via your health plan.

Teladoc: Quickly launch your telehealth provider site to have a telemed visit.

Cost Estimator: Easily find your out of pocket estimates for a procedure with specific providers.

***Actual widgets may vary**

Overview

zConnect Health is a zakipoint Health app that is available to members to access cost estimates for different procedures at different providers utilizing the health plan you are enrolled in through your employer. The app provides a cost estimate to you based on the plan's contracted amount, plan design and status of you and other members in your plan's deductibles and out of pocket expenses. This information, alongside the cost estimates, are also available to you through this app.

Accessing the application

You can access the **zConnect Health** application by downloading this app on your mobile devices.

On the App Store (iPhone User) or Play Store (Android Users), search for zConnect Health and click on Download.

You can also access the web version of this application via the following link.
